### DETAILED ACTION

1. This is in response to the Applicants' response to the Election / Restriction requirement filed October 23, 2007. The Applicants elected Group I, claims 1-6 and 9 without traverse. Claims 7, 8, and 10-23 have been withdrawn. Independent claims 1, 6, and 9 have been amended.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Drummond et al., U.S. Pat. No. 7,080,036 (hereinafter, Drummond).

As to claims 1, 6, and 9, Drummond discloses a method of operating a self-service terminal and a self-service terminal, comprising:  
detecting one or more characteristics relating to device capabilities and user preferences of a user of a mobile computing device in the vicinity of an SST (col. 54, lines 32-67, col. 55, lines 17-28, and col. 56, lines 24-53); and configuring an SST user interface to accommodate detected device capabilities and user preferences (col. 54, lines 32-67, col. 55, lines 17-28, and col. 56, lines 24-53).

As to claim 2, Drummond discloses wherein the detection step includes the step of detecting those devices which do not belong to a user currently interacting with the SST (col. 54, lines 32-67, col. 55, lines 17-28, and col. 56, lines 24-53).

As to claim 3, Drummond discloses the step of determining the configuration of the SST user interface dependent on the detected characteristics of those devices which do not belong to a user currently interacting with the SST before the user begins to interact with the SST (col. 54, lines 32-67, col. 55, lines 17-28, and col. 56, lines 24-53).

As to claim 4, Drummond discloses the step of ordering a plurality of determined configurations in accordance with the time that each detected device has been in the vicinity of the SST (col. 54, lines 32-67, col. 55, lines 17-28, and col. 56, lines 24-53).

As to claim 5, Drummond discloses the step of displaying advertisements or other information selected according to the detected characteristics of a mobile device (col. 55, lines 39-44).

***Response to Arguments***

4. Applicant's arguments with respect to claims 1-6 and 9 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
